CANADIAN VAN
Equipment

**True Racks ladder rack system includes:**

* Powder coated aluminum cross members.(1)
* Powder coated aluminum Front Ladder Holders. (2)
* Powder coated aluminum ladder positioners (3)
* Ladder Locking mechanism on curbside or/and street side.(4)
* Four (4) powder coated aluminum mounting brackets.(5)
* Side Tubs (6)
* Four (4) stainless steel mounting clamps. (Only for vehicles equipped with rain gutter)
* All necessary mounting hardware. Anti-wear protection strips help protect crossbars & ladders during transport.

Each bracket is clearly labeled to assist with identification

Full Size Vans equipped with rain gutter - Mounts directly to the rain gutter. No drilling required

Vehicles without rain gutter – Mounts directly to the roof. Some drilling required

**Assembling**

Fit all of your Rack's tubing together with cross bars at their assembly points, aligning all the holes for the bolts you will install.

Once the basic frame of the ladder rack is assembled, secure ladder rack frame using the bolts and washers provided.

Your ladder rack includes support brackets that hold Ladder Rack on vehicle's roof or to attach to rain gutter. Assemble these and attach to ladder rack before installing.

**Installation Instructions Aluminum Ladder Rack**

**IMPORTANT**: It may require two people to install this ladder correctly.

Position mounting assembly into your van's roof or rain gutter or center the mounting assembly on the van's top. The roof of your van may taper off in one direction, so ensure that the mounting assembly will provide an even distribution of the weight being applied when a ladder is added to the roof.

Your mounting assembly comes with a gutter clamp or support brackets to attach to vehicle's roof to secure ladder rack to the van.

**Do Not use the ladder rack parts if any parts missing or damaged, as this may cause failure or/and personal injury.**

***WARNING!*** The user must secure the clamps and any ladders properly, checking the security frequently when in use.
***WARNING!*** Remove any loose objects from the ladders

***WARNING!*** Avoid any protrusions beyond the side of the vehicle as these may present a risk of injury to passers-by.
***DO NOT*** Use the ladder rack clamps for any purpose other than that for which they are designed.
***DO NOT*** Secure any other items using the clamps. These are designed for ladders only.
***WARNING!*** Drive carefully - reduce speed accordingly when transporting ladders.
Before every use check the clamps for security of fittings or any sign of wear and tear. Replace any worn or damaged parts.
***WARNING!*** Remember the driver of the vehicle is responsible for the security and safety of the load carried. Check the ladders are stable before transit.
***WARNING!*** The warnings, cautions and instructions discussed in this instruction manual cannot cover all possible conditions and situations that may occur. It must be understood that common sense and caution are factors which cannot be built into this product, but must be applied by the operator.
